Very few people in real estate investing can say they enjoy manually entering all of their company's purchase data into an Excel spreadsheet. The process is tedious and tiresome; the more you do it, the more likely it is that you might fall asleep at your computer and wake up with your keyboard imprinted on your face.

That's where HammerZen steps in to save the day. They have partnered with National REIA to help members save time & money by keeping track of Home Depot purchases and efficiently importing purchase data right into QuickBooks. It can be used to create accurate 'actual vs. estimates' and become more competitive without even needing to hire a bookkeeper. How?

The HammerZen app automates the data import process from The Home Depot right into QuickBooks. Typically, you needed to review your receipts and then type in each tiny detail, digit-by-digit. When you use HammerZen, you can automatically upload hundreds of statements in a matter of minutes! It's like stress-free accounting. HammerZen eliminates the potential for any errors, significantly increasing the accuracy of your data so that you can produce accurate reports and estimates. Approved by Intuit, HammerZen is one of the most valuable tools you can have at your disposal.

HammerZen is one of a select few Intuit Premier Resellers in the country, authorized by Intuit to sell, implement and support QuickBooks and its related products at the lowest possible price. Members of National REIA exclusively receive \$2 off of the HammerZen app. Visit the address below to start your free 30-day trial.

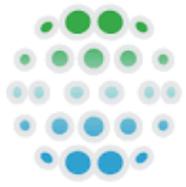

**HammerZen's program for Quickbooks provides NREIA members the following benefits:**

- ✓ Preferred low pricing
- ✓ Exclusive to NREIA members
- ✓ Collaboration with industry experts
- ✓ A dedicated, reliable support team
- ✓ All the help you need to succeed

**HammerZen** helps businesses save time & money by keeping track of Home Depot purchases and efficiently importing purchase data right into QuickBooks. Use it to create accurate 'actual vs. estimates' and become more competitive without even needing to hire a bookkeeper.

Founded in 1990 by Ingo Winzer, Local Market Monitor began as a quarterly publication before making its way to the Internet. Ingo developed the National Review of Real Estate Markets, which analyzed conditions in 100 US Markets, using such economic data as home values, employment growth, and population growth. He developed the concept of Equilibrium Home Prices, which has proved valuable in assessing real estate market risk during the last two economic cycles.

Local Market Monitor continues to evolve in response to the needs of their customers and advances in technology. They've expanded their market coverage and refined their forecast models to enhance the value of their services.
